Attn: Mr. Mohd. Ismail - General Manager

Sub: Appreciation Letter

This letter is intended to express my appreciation for the dedicated efforts, the hard work and the quality of service provided by you and your staff throughout at Gulf Marine Services from past 8 years.

You have been involved in our various projects like GMS Lighton Stealth Conversion, Self Elevating Jack Up Barge Endurance 6101 and the other GMS Vessels Repairs and Maintenance work. Also your continuing support with our going project Endeavour 6102 Self Elevating Jack Up Barge.

Many contractors are skilled and reputable, but rare are those with a loyalty and honesty in the world of business today. I believe that without contractors we could not meet our project requirements.

We are happy to use your service well in the past years and we look forward to continuing a successful working relationship in the future.

Once again I would like to appreciate your continue support of our business.

With best wishes,

Yours faithfully,

John Petticrew
Technical Director

Sincere recognition and appreciation for positive impact

Standard is all about Quality

We are meeting customer requirements through international standards of quality. This ensures customer satisfaction and also improves efficiency and maintains consistency of our operations by focusing on management and employees.

Compliance with Modern Slavery Act

MIMO Anti-Slavery and Human Trafficking Statement

We seek to ensure that modern slavery and human trafficking is not taking place in our own business or in our supply chain. Our supply chain comprises various suppliers, contractors and sub-contractors that provide the goods, manpower and services needed to accomplish our projects and our corporate activities. Reasonable and practical steps are undertaken to ensure our suppliers are implementing relevant ethical employment practices. Should a supplier be suspected to be involved in modern slavery and human trafficking, we will consider a series of remedial measures, including consultation and education, and where appropriate, the discontinuation of the supplier's services.

We risk assess all new suppliers and regularly risk assess all existing suppliers in our global supply chain to identify which suppliers could present an increased risk of modern slavery occurring. In particular, we seek to understand the business operations and activities of our crewing and staffing agencies that are located in areas or countries considered to present a higher level of risk.

In 2017 we wrote to our suppliers to ensure they are aware of our commitment to the prevention of modern slavery and human trafficking summarising the fundamental standards of employment we provide for our own employees and our expectation of them in this matter within their own businesses and supply chains. New suppliers will also receive this communication as part of our ongoing risk assessment and due diligence procedures. Our standard terms and conditions of trade with our suppliers explicitly include our policy on modern slavery.

We also reviewed our anti-slavery and human trafficking procedures to ensure these continue to be appropriate and in accordance with the requirements of the Act. The procedures, which are incorporated into our formal policies that describe our ethical standards and our expectations of employees and others with whom we work, contain information on how to report any suspected wrongdoing, including the possible abuse of human rights.

All our staff have been made aware of our policy on modern slavery and human trafficking. On an annual basis management and other appropriate staff are required to certify their compliance with this and the Group's related policies and procedures. Our management team is responsible for ensuring those reporting to them understand and comply with our policy on modern slavery and human trafficking and our related procedures.

Above statement has been approved by the CEO of MOHD ISMAIL MOHD TECH CONT -MIMO.
